

# **Advance Android Assessment Test**

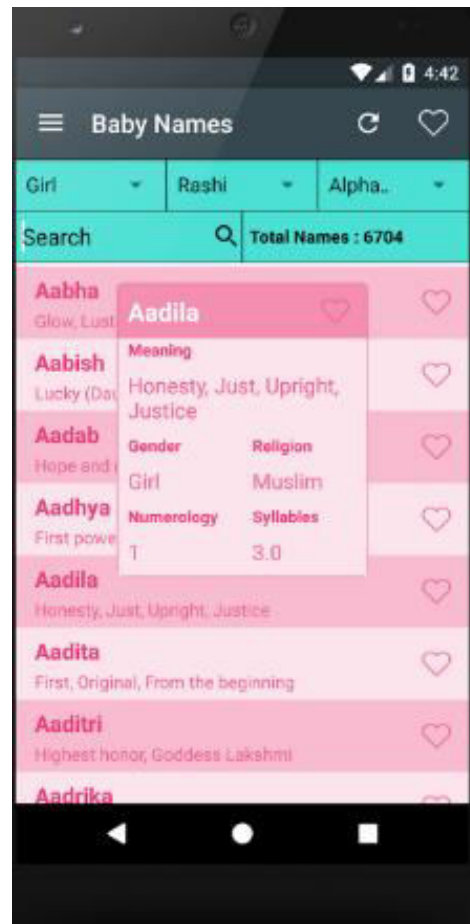

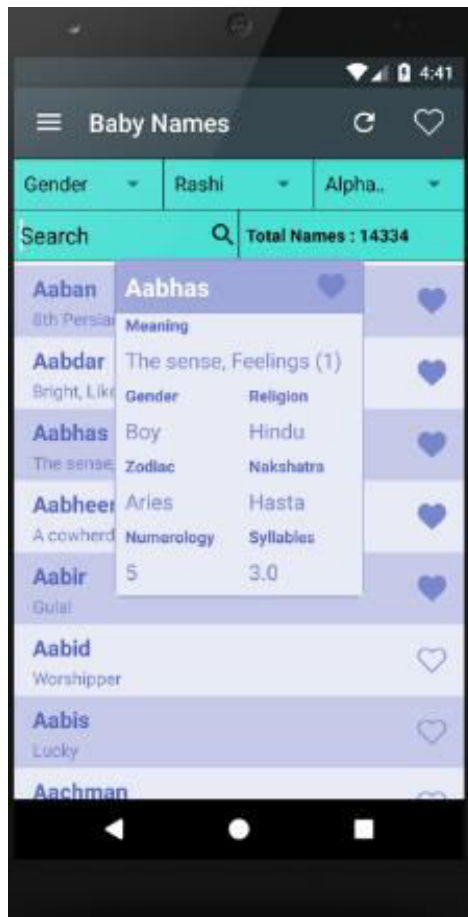

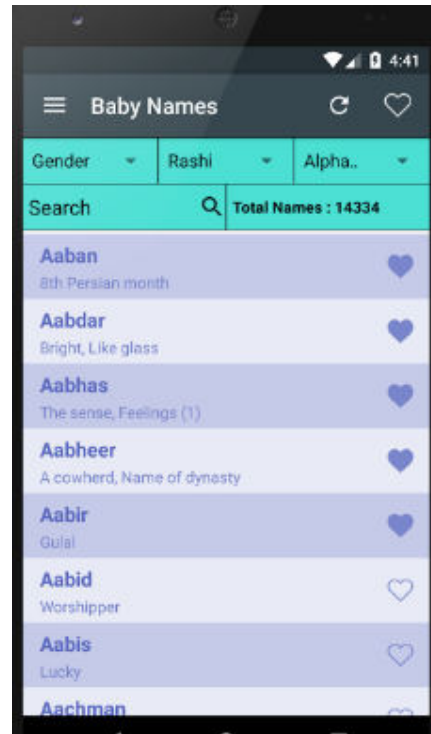

- **Write a program to demonstrate the Baby Name App**
- **Prepare demonstration of Baby Name App under software Development principles and follow coding protocols**
- **To implement application using of control statements as well as Collection concept**

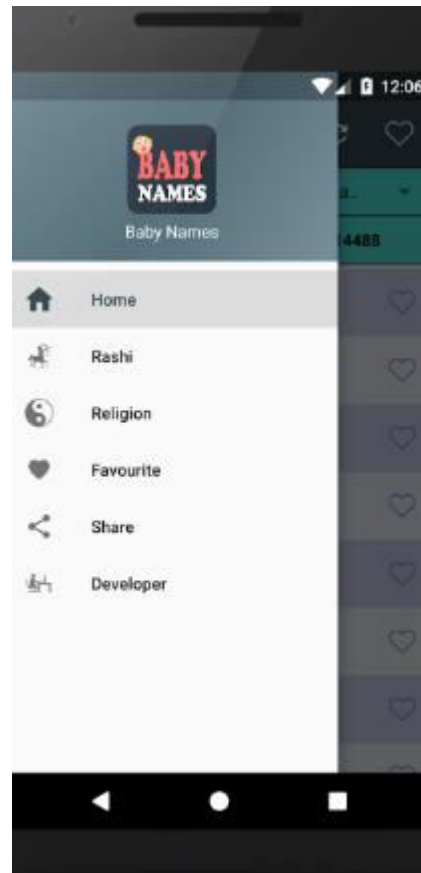

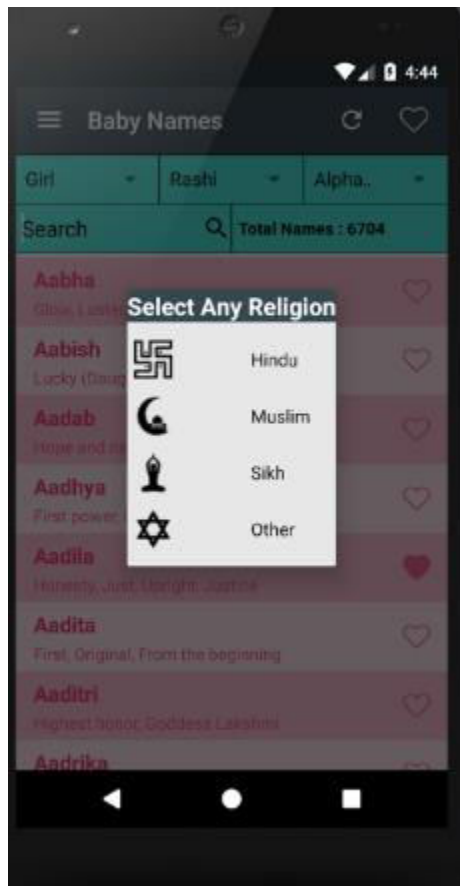

## **Screen Description**

- 1. Add Splash Screen**
- 2. Add Baby Names**
- 3. Search Name**
- 4. Search Name By Rashi**
- 5. Add Names as per the Rashi**

## **Screens Description**

- 6. Data Should be displayed in Recyclerview with GridLayoutManager**
- 7. Use Material Design**
- 8. Use Retrofit Library for JSON Parsing**
- 9. Use Proper Dimensions and your screen should be visible proper in every device.[Make sure there is no Screen compatibility issue]**

- Remove option must ask to user for ID to delete and again ask for confirmation (Y/N) before deletion and display proper message after deletion

- **Program should not be terminated till the user Exit it**
- **Developer needs to test his product before launching it into the market**

**After completion this project upload it on GitHub**

- **Upload all features in develop branch after completion all features merge it with main branch**

**Note: You Have to Use Online database with JSON parsing**
